WHAT IS B2B MATCHMAKING?

BIDA's B2B Matchmaking platform is a digital service designed to connect investors with potential investees across Bangladesh. Under Bangladesh Investment Development Authority (BIDA)'s website <https://www.investbangladesh.gov.bd/>, the platform enables businesses to showcase their projects, while investors can explore opportunities, bookmark projects, and communicate directly with project owners. By simplifying discovery, communication, and engagement, BIDA's B2B Matchmaking system supports investment facilitation and promotes economic growth through streamlined business-to-business connections.

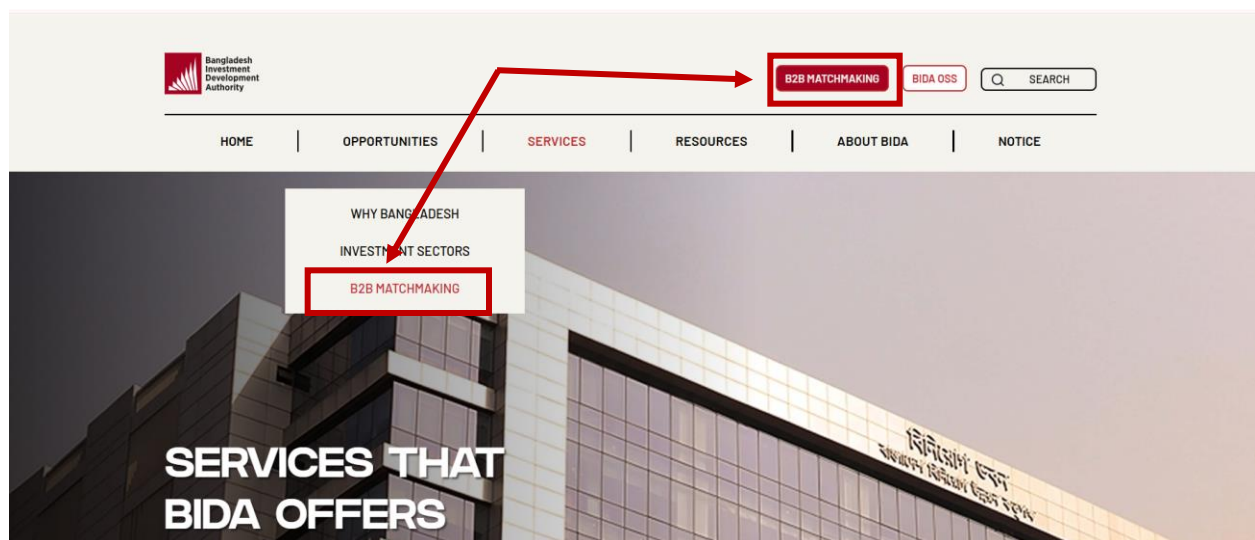

Through B2B Matchmaking portal:

- Investees can register and showcase investment-ready projects
- Investors gain direct access to sector-wise project portfolio
- Engage directly without intermediaries
